

**470**

We operate more than 470 locations in 39 U.S. states and seven Canadian provinces.

**44,000**

We are the leading school bus operator in the North America, with a fleet of 44,000 school buses that travel 550 million miles per year.

### Expertise

With more than a century of experience in providing safe and reliable transportation to students across the United States and Canada, we at First Student understand the priorities of today's K-12 community. Our customized approach and industry-leading solutions ensure that students get to and from school safely, each and every day.

### Relationships

Our strong reputation is born from established relationships with school districts and the local communities in which we operate. While equipment and technology have evolved over the years, our commitment to deliver unmatched safety and service excellence remains unchanged. We are proud to have transported past generations and look forward to serving tomorrow's students.

**1,100**

We service 1,100 school district contracts.

**50,500**

We are an integral part of the communities we serve, employing 50,500 people.

### Safety

Student safety is the primary concern of school districts, parents and communities. That is why safety is a core value, an integral part of our culture, and a way of life for our employees. We invest millions of dollars each year in driver training. Each of our drivers receives ongoing, extensive safety and security training throughout the school year.

**2x Safer**

We are twice as safe as the industry average (collisions).

Only company in our industry to be awarded the National Safety Council Green Cross for Safety® award.

**5 million**

Our local transportation professionals safely and securely transport 5 million student journeys every school day.

### Solutions

First Student is constantly providing solutions that improve safety and provide peace of mind. We are dedicated to providing exceptional services today that help create a better tomorrow.

- On-board technology such as global positioning systems (GPS) and electronic vehicle inspection reports (EVIR) link to back office systems which helps to eliminate excess mileage and fuel usage and provides customers with access to real time data.
- Safety Crossing Gates on the front of all of our school buses prevent children from crossing immediately in front of a bus, where drivers cannot see them.
- Child Check-Mate System® on all of our school buses help drivers confirm that no sleeping children remain inside a bus at the end of each route.
